

KAF Quality Policy----Vision Statement

KAF is committed to a continuous improvement process. Our Quality policy affects everything we do. Total customer satisfaction is the goal on our journey to excellence. In line with our company's vision, the KAF Manufacturing Company mission is to design and manufacture parts for the Scientific instrument industry that are of the highest quality and precision while at the same time competitively priced. We will accomplish this through a rigorous focus on quality and the use of the newest technologies while at the same time we will give our work force all necessary training, support and motivation. We will strive to meet all of the goals set forth in the ISO standard that we are certified to. We will pursue all our goals with honesty, integrity and as a responsible corporate citizen.
